As Chairman of the Board of Trustees, I am pleased to present the 2005 Annual Report for the City of Manchester Employees' Contributory Retirement System. This report includes the Financial and Actuarial Valuation summaries of the System's Investment and membership activities for plan year 2005. The report also includes management discussion and analysis of the events of the past year. The results provided demonstrate the Board of Trustees' continuous mission to provide a measure of financial security for the members and beneficiaries of the Retirement System.

As a matter of policy, the Board of Trustees closely monitors the System's asset allocation in order to maintain the optimum blend of investment classes and achieve maximum investment return with minimum risk exposure. Investment classes utilized by the System include domestic and international equities, fixed income securities, real estate, and alternative investments including Timberlands and Hedge Funds. Investment professionals in twenty firms are hired to actively manage the System's diversified investment portfolio. The objective of the System's investment and management practices are intended to ensure future financial security for plan participants.

The Board of Trustees holds asset managers to a strict performance standard. For each manager, performance comparisons are made against a relevant benchmark and peer universe as specified in the System's Investment Manager Objectives. When results fall below both the benchmark and universe median in any one calendar year, the manager is critically reviewed. A formal watch is initiated when manager results fall below the performance criteria over any given period. A manager is placed on probation if this performance is below both the benchmark and universe median, and, once the probationary period begins, the manager is given four quarters to improve relative performance. If relative performance deteriorates or does not improve, the manager becomes subject to termination. The magnitude of performance shortfall, longer-term results and current market conditions are considered in assessing manager performance. The Board of Trustees also reserves the right to terminate any manager at its discretion.

This Annual Report and in particular the Management Discussion and Analysis section review the results of the System's asset management and administrative operations for Plan Year 2005. The System's investment returns showed positive results once again in 2005 after two good years in 2003 and 2004. This was in keeping with the experience of public pension plans nationally who also operate on a calendar year basis.

On behalf of the Retirement System Board of Trustees and staff, I wish to thank the membership for its support and interest in the Board's activities throughout 2005, and to note for the record that the Board remains committed to improving membership service and communications. I also wish to thank my colleagues of the Board of Trustees and System staff for their continuing effort and dedication throughout the year which help to make our services possible.

Sincerely,

Donald A Pinard

Investment Manager Objectives for Active Managers

— EQUITY —

DOMESTIC VALUE

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of value style equity investment managers.

Objective #2 - Exceed the S&P 500 Index by 100 basis points annually, over a three year period. Over interim periods the R1000 Value is the performance benchmark. Relative strength expected in falling markets.

DOMESTIC MIDCAP VALUE

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of midcap value style equity investment managers.

Objective #2 - Exceed the Russell Midcap Value Index by 100 basis points annually, over a three year rolling period. Relative strength expected in rising markets. May invest up to 5% of the portfolio in equity REITs.

DOMESTIC GROWTH

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of growth style equity investment managers.

Objective #2 - Exceed the S&P 500 Index by 100 basis points annually, over a three year rolling period. Over interim periods the R1000 Growth is the performance benchmark. Relative strength expected in rising markets. May invest up to 5% of the portfolio in equity REITs.

DOMESTIC MIDCAP CORE

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of midcap growth style equity investment managers.

Objective #2 - Track the performance of the MSCI US Midcap Index.

INTERNATIONAL

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of non-U.S. equity investment managers.

Objective #2 - Exceed the EAFE Index by 100 basis points annually over a three year rolling period. Relative strength expected in falling markets.

EMERGING MARKETS

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of emerging market equity investment managers.

Objective #2 - Exceed the MSCI Emerging Markets Index by 100 basis points annually over a three year rolling period. Relative strength expected in falling markets.

PRIVATE EQUITY/VENTURE CAPITAL

Objective #1 - Perform above the U.S. public markets net of all fees and expenses over the life of the partnership through investments in privately held companies primarily in health-care and life sciences, telecommunications and information technology industries.

Objective #2 - Exceed the average return produced by venture capital and private equity funds of similar vintage over the life of the partnership.

— FIXED INCOME —

DIVERSIFIED

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of fixed income investment managers.

Objective #2 - Exceed the Lehman Aggregate Index by 100 basis points annually over a three year rolling period.

INTERMEDIATE

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of intermediate fixed income investment managers.

Objective #2 - Exceed the Lehman Government/Corporate Intermediate Index by 50 basis points annually over a three year rolling period.

HEDGE FUNDS

Objective #1 - Provide consistent positive returns with volatility below the broad equity market.

Objective #2 - Perform above media consistently over a three year rolling period compared to a universe of hedge fund investments.

— REAL ASSETS —

TIMBERLAND

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of timber investment managers.

Objective #2 - Exceed a real return of 8% per annum.

TACTICAL ASSET — ALLOCATION —

GLOBAL & DOMESTIC

Objective #1 - Perform above median consistently over a three year rolling period compared to a universe of peer TAA managers.

Objective #2 - Provide superior risk adjusted returns, as measured by alpha, annually over a three year rolling period. The domestic benchmark is defined as 65% S&P 500, 30% 20 Year U.S. Treasuries, 5% Cash. The global benchmark is defined as 60% MSCI World Index, 40% Citigroup World Gov't. Bond Index.

FAX (603) 624-6342

Dear Plan Participant:

I am pleased to present this Annual Report of the City of Manchester Employees' Contributory Retirement System (MECRS) for the fiscal year ended December 31, 2005. This report is submitted in compliance with Chapter 218:6, II, Laws of 1973, as amended, and is intended to satisfy public pension plan financial reporting requirements and to give City employee members

confidence that the Board of Trustees is responsibly managing fund assets. The MECRS Annual Report was prepared to conform to the most current reporting Governmental Accounting Standards Board pronouncements.

The MECRS created as a tax-qualified governmental retirement plan under sections 401(a) and 414(d) of the United States Internal Revenue Code, as amended, was established under the provisions of New Hampshire Chapter 218, Laws of 1973 and became effective on January 1, 1974. Its purpose is to provide service and disability retirement benefits to those City employees who are not Police Officers, Firefighters, or Teachers and who are not eligible to participate in the New Hampshire Retirement System.

The MECRS is administered by a seven-member Board of Trustees whose responsibilities include the formulation of policy and determination of employee eligibility for participation and benefits. The Board also oversees the daily administrative, fiscal and asset investment operations of the System.

As part of the Board's ongoing efforts at keeping System operations up-to-date and efficient, a number of legislative housekeeping amendments were passed into law during 2005. Beyond the simpler housekeeping measures, a new benefit provision which provides a subsidy for employer sponsored health insurance was also enacted and approved by City voters in a November referendum.

For the second year in a row, the MECRS applied for and received a compliance award from the Public Pension Coordinating Council for having met professional standards for plan design and administration. In order to receive the award, plans must meet requirements on funding, financial reporting, member benefits, actuarial and audit practices.

In closing, on behalf of the Board of Trustees, I want to reiterate our commitment to prudent asset management and thoughtful plan design which should in turn contribute to the stability of your Retirement Plan.

Gerard E. Fleury
Executive Director

Summary Plan Description

This document has been prepared in compliance with Chapter 218:6, II, Laws of 1974 as amended and is intended to provide the reader, especially new entrants to the plan, with a summary of important plan provisions. Information contained in this summary plan description is only intended to provide the membership of the MECRS and other interested parties with a general overview of the plan. While every effort is, and will be made to keep information in this description as accurate and up-to-date as possible, no retirement or financial decisions should be made based solely on information contained herein. Questions on matters of entitlement or process should be addressed in writing to the system's administrative office at the address shown below.

Type of Plan: The Manchester Employees' Contributory Retirement System is a "defined benefit" plan and operates pursuant to Section 8.09 of the City Charter of Manchester, New Hampshire, in accordance with the State of New Hampshire Laws of 1973, Chapter 218 as amended, and is intended to create a tax-qualified governmental retirement plan under sections 401(a) and 414(d) of the Internal Revenue Code as amended. This defined benefit plan is superior to defined contribution plans in that it calculates the retirement benefit based upon average final earnings, creditable service, and age at retirement as opposed to simply the total accumulation of dollars in the plan. The System is governed by a seven member board in accordance with Articles I and II of its By Laws and operates in accordance with Administrative Rules established for that purpose. Relevant financial and demographic information about the System is contained in this report and on a website maintained by the System at www.ManchesterRetirement.org. That information is also available in hard copy upon request from the System's administrative offices. The System exists for the benefit of its membership and maintains administrative offices in Suite 403 of the Chase Building at 1045 Elm Street in Manchester, New Hampshire.

The system may be contacted through its Executive Director by any of the methods listed below:

By phone at: 603-624-6506

By fax at: 603-624-6342

By email at: Gfleury@ManchesterRetirement.org

Or by writing to: Manchester Employees Contributory Retirement System
1045 Elm Street, Suite 403, Manchester, NH 03101-1824

Membership

The Retirement System applies to all full-time and permanent employees of the City, including elected and appointed officials. The Retirement System does not cover certain categories of employees, such as temporary employees, members of boards and commissions who are not full-time or permanent part-time employees of the City, members of the fire and police departments, or teachers who are eligible to participate in a state-administered retirement system, and other persons who are, or were, eligible to participate in the New Hampshire Retirement System.

All covered employees hired after January 1, 1974 are required to participate in the Retirement System as a condition of employment. Employees are 100% vested after five years of service. The normal retirement age is 60 and the benefit is calculated at 1.5% of final average total compensation during the highest three years or 36 highest consecutive months of service in the last ten years of service (hereafter final average earnings) multiplied by the years of service. The benefit was increased to 2% for service completed after January 1, 1999. Effective July 1, 2005, members who are still in service and have service time prior to January 1, 1999 are afforded an option to upgrade that service multiplier to 2% pursuant to established laws and supporting rules established by the Board. Permanent employees of the City of Manchester prior to January 1, 1974 who were in service as of January 1, 1974, are eligible for early retirement if credited with no less than twenty (20) years of service.

Duties of the Board of Trustees

The retirement board is the trustee of the retirement fund and has the obligation of a fiduciary to the Retirement System and its members and beneficiaries. In the fulfillment of its duties and responsibilities, the retirement board acts solely in the interests of the Retirement System, the members, and the beneficiaries and with the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims. As trustee, the retirement board holds legal title to all securities and assets of the Retirement System and has full control and management of them with the power to invest and reinvest the same in accordance with the terms, conditions, limitations, and restrictions imposed by the general statutes of the state of New Hampshire governing the investment of trust funds. In addition to those powers, the retirement board, as trustee, also has the power to: collect and receive any and all monies and other property due and to give full discharge and acquaintance therefore; appoint advisory committees to aid the retirement board in its duties under this section or to delegate to any corporate fiduciary or an insurance company within or without the state who may or may not be the custodian of stocks and securities, the power and discretion to make decisions with regard to the purchase or sale of any legal object of investment and to take any action necessary to affect decisions by or on behalf of the Retirement System with the same legal effect as if performed by the retirement board; authorize the payment of compensation to an agent for retirement fund management services; settle or compromise any claims, debts or damages due or owing to or from the Retirement System, and to commence or defend suits or legal proceedings whenever, in its judgment, any interest of the Retirement System so requires employing suitable agents and counsel for this purpose and paying their reasonable expenses and compensation; maintain records of receipts and disbursements and to pay benefits required under the retirement system to eligible members, or, in the event of their death, to their beneficiaries; and generally do all other things necessary and proper to carry out the operation of the retirement fund.

Contributions

Contributions to the plan consist of a member component which equates to 3.75% of wages as defined by regulation, (that percentage will increase to 5% as of February 6, 2006) and an employer component which varies from year to year with the outcome of an annual actuarial valuation. The factors which can influence the employer's cost of participation include many variables which are cited in the valuation report and can be obtained upon request. Member contributions are deducted by the employer and remitted to the System following each payroll cycle. The City's matching contribution is also expressed as a percentage of gross wages and is remitted to the System after each payday. The percentage of the employer contribution is determined by the annual valuation process and is ratified by the Board and incorporated into the City's budget prior to the beginning of the City's fiscal year.

Additional Contributions

Additional Contributions, which went into effect July 1, 2004, provide an option for members to *either* reduce the offset associated with retiring prior to age 60 *or*, for the member who upon reaching the normal retirement age, lacks the service required to attain a 50% retirement benefit. The amount needed to *either* reduce the early retirement offset *or* provide a 50% benefit, is derived from the member making additional after tax contributions to their account. Determining how much a member is obligated to pay if they decide to pursue this option and simultaneously determining the contribution limit dictated by Federal regulations on such payments is done by means of an actuarial calculation which must be done at the member's expense. Member's who are rapidly approaching their anticipated date of retirement and who are otherwise in a position to avail themselves of this benefit option are advised to contract the System for further details.

Tax Shelter Plan

Member contributions deducted from salary by the employer, remitted to the plan on the employee's behalf, and indexed at the prescribed rate of 3.75% are considered tax sheltered under sections 401(a) and 414(h) of the Internal Revenue Code as amended. This pre-tax status is only extended to contributions which are a percentage of wages earned for the period. Beginning in February of 2006 the rate will increase to 5% as part of the establishment of a Section 401(h) Medical Sub-trust. Generally, pre-tax status is only extended to contributions which are a percentage of wages earned for the period. Permissive service purchases of temporary service and of time previously withdrawn from the plan may be eligible for a trustee to trustee transfer from 401(k), 403(b), and 457 plans. Contact the system for further details. Other amounts paid in by the member on a voluntary basis for purposes such as Additional Contributions are considered to have been made with post tax dollars. All post tax contributions are tracked by the system and will be reported as tax exempt in accordance with applicable Federal Tax Rules at the time of their eventual distribution.

Creditable Service

Creditable Service refers to the amount of time a plan participant spends in the service of the employer. Service rendered for the full normal working time in a period of 12 consecutive months entitles a member to one year of service credit. Time spent as a member of any of the various city boards, or in any other capacity rendering incidental employment to the city, is not counted as service. Absence from employment on account of active duty with the armed forces of the United States in time of emergency or war, or as directed by selective service or to meet selective service requirements, or as a member of the national guard, or organized reserves, to meet its requirements, is counted as continuous employment with the city, provided, that the employee returns directly to active employment with the city within 90 days after he or she becomes eligible for release from such active duty. Any such period of absence is not counted as service unless the employee completes a service buyback.

Normal Service Retirement

Any member who either has attained the age of 60 years or was in the service of the city on January 1, 1974 and has completed at least 20 years of service, is eligible for a normal service retirement benefit. Any such member may retire by filing with the retirement board, a written statement duly attested setting forth the time subsequent to the date of filing that the member desires to be retired, or the retirement board may, at its option, retire any such eligible member, furnishing written notice thereof at least 60 calendar days in advance of the specified date of such retirement.

The payment of retirement benefits to any member who is eligible to receive them and who has filed all election forms with the Retirement System shall become effective the first day of the month following termination of employment pending approval by the retirement board. No changes to benefit elections are permitted after the commencement of the payment of benefits.

The Retirement System shall not pay retirement or disability benefits to city employees who again become eligible to participate in the Retirement System. A member shall notify the Retirement System of their rehire immediately. Upon rehire after a period of termination, all disbursements under the Plan to that member shall cease and the member must resume making contributions to the retirement fund as of the first pay period following their rehire. Rehired members shall have their benefits determined in accordance with laws governing "restoration to service as define in the system's enabling legislation.

Notwithstanding any other provisions, the maximum pension payment payable to any member or beneficiary shall be limited to such extent as may be necessary to comply with the requirements of sections 401(a)(16), 401(a)(17) and 415 of the Internal Revenue Code. The retirement benefits payable hereunder shall be made in the form, at such time and otherwise in compliance with the distribution and rollover requirements of sections 402(c), 401(a)(9), and 401(a)(31) of the Code.

Members who qualify for a normal service retirement benefit shall receive an annual pension payable during the member's lifetime in an amount equal to the sum of: one and 1/2 percent of the member's final average earnings multiplied by the number of years, including the fractions of years represented by full months, of service completed prior to January 1, 1999; plus two percent of the member's final average earnings multiplied by the number of years, including the fractions of years represented by full months, of service completed after December 31, 1998. However, in the case of a member who both was in the employ of the city on January 1, 1974 and has completed not less than 20 years of service at the time of retirement, the annual pension payable during the member's lifetime shall be equal to the greater of the sum of the amounts determined in accordance with methods stated in the paragraph above, or 50 percent of final average earnings.

Early Retirement

Each member whose age plus years of service equals 80, or who attains age 55 with a minimum of 20 years of service, may have the option, to be exercised by a written notice to the retirement board, to retire at any time thereafter, prior to the member's normal retirement date. The amount of retirement benefits payable to such retired member shall be computed as provided in accordance with prevailing laws and regulations, except that the date of such early retirement shall be used in determining the member's service, and the amount thus obtained will be reduced for each month by which the date on which benefits commence precedes the month after which the member attains 60 years of age by 1/6 of one percent.

The contingent annuitant and 10-year certain options provided for in Plan Law may be elected by a member under this section, in which case the term "retirement date" shall be deemed to mean early retirement date wherever applicable with respect to laws dealing with Member Death Benefits by reasons of accidental or ordinary death.

Vesting

Vesting is the process through which a plan participant becomes irrevocably entitled to a monthly pension benefit in lieu of a cash distribution of paid in contributions and interest. A vested member is almost always financially better off collecting a monthly annuity from a defined benefit plan such as this one as opposed to collecting the cash payout. For the MECRS, vesting is achieved after the completion of five (5) years of participation and contribution into the plan.

Ordinary Disability Retirement

Any member of the Retirement System who, after 15 years of continuous service as an employee of the city, becomes totally and permanently disabled such that they are incapable of performing the essential functions of their position prior to such disability, may be retired for disability according to the prevailing regulations. The determination as to total and permanent disability shall be made by the retirement board upon review of an application for disability benefits submitted by the member and consultation with at least 2 impartial physicians selected by the retirement board who shall examine the member and submit written reports to the retirement board.

Members who retire for disability of this type shall be entitled to an annual disability benefit payable until the earlier of the termination of such disability or their death, computed on the basis of service completed prior to the date of disability in an amount equal to the sum of: One and 1/2 percent of the member's final average earnings multiplied by the number of years, including the fractions of years represented by full months, of service completed prior to January 1, 1999; plus two percent of the member's final average earnings multiplied by the number of years, including the fractions of years represented by full months, of service completed after December 31, 1998. Disabled members may also receive their disability benefit in the form of a contingent annuity as described under "Optional Retirement Allowances" later in their document. Any member who has upgraded service credit earned between 1974 and 1999 shall have their benefit calculated in keeping with the percentage of such time as may have been upgraded prior to retirement.

Accidental Disability Retirement

Any member of the retirement system who becomes totally and permanently disabled such that they are incapable of performing the essential functions of their position prior to such disability, if such total disability is shown, to the satisfaction of the retirement board, to have been sustained during the performance of duties pertaining to the member's employment by the city, shall be entitled to retirement for disability irrespective of the duration of employment. In order for a member to receive such disability benefits, the member must submit an application for disability benefits within 60 days of termination of employment. However, any member receiving a disability benefit on account of total and permanent disability sustained during the performance of duties pertaining to employment by the city, as provided herein, shall receive a benefit equal to the greater of the sum of the amounts determined in accordance with the formula for Ordinary Disability in the section above, or 50 percent of final average earnings. If a member has less than 3 years of service at the time of becoming totally disabled in the performance of duties pertaining to their employment by the city, their pension shall be based upon their annualized disability earnings. The disabled member may also receive their disability benefit in the form of a contingent annuity as described further on in this document.

Ordinary Death Benefit

An ordinary death benefit may be payable upon receipt by the board of trustees of proper proof of the death of a member in service indicating that such death was not the result of an accident occurring while in the performance of duty. In such cases, there shall be a death benefit payable to the member's surviving spouse or designated beneficiary or beneficiaries, if living, or otherwise to the member's estate.

If the member had at least 5 years creditable service or was eligible for service retirement at the time of their death and had not designated a beneficiary or beneficiaries other than the a spouse, there shall be payable to the member's surviving spouse, continuing until the spouse's death or remarriage, the greater of either an allowance equal to 50 percent of the service retirement allowance that would have been payable to the member had the member retired immediately prior to death, based on final average earnings and creditable service at the time of death, or an allowance computed according to the member's length of service and the reduction in benefit payments computed for a 100 percent contingent annuitant option and for early retirement.

In lieu of an allowance, the surviving spouse may elect a lump sum benefit equal to the deceased member's annual earnings at the time of death, in addition to a refund of contributions.

If the member did not have at least 5 years of creditable service and was not eligible for service retirement at the time of death, there shall be payable to the member's spouse or the member's designated beneficiary or beneficiaries, if other than the member's spouse, if living, or otherwise to the member's estate, a lump sum benefit equal to the deceased member's annual earnings at the time of death in addition to a refund of contributions.

However, if the member had at least 5 years creditable service or was eligible for service retirement, but is not survived by a spouse, or has designated a beneficiary or beneficiaries other than their spouse, there shall be payable to the person or persons nominated by the member, if living, or otherwise to the member's estate, a lump sum benefit equal to the deceased member's annual earnings at the time of death, in addition to a refund of contributions.

Accidental Death Benefit

An accidental death benefit may be payable upon receipt by the board of trustees of proper proof of the death of a member in service indicating that such death was not the result of an accident occurring while in the performance of duty. There may also be a death benefit payable to the member's surviving spouse or designated beneficiary or beneficiaries, if living, or otherwise to the member's estate.

If the member has at least 5 years creditable service or was eligible for service retirement at the time of their death and had not designated a beneficiary or beneficiaries other than their spouse, then a benefit shall be payable to the member's surviving spouse, continuing until the spouse's death or remarriage. That benefit shall be the greater of either an allowance equal to 50 percent of the service retirement allowance that would have been payable to the member had the member retired immediately prior to death, based on final average earnings and creditable service at the time of death, or an allowance computed according to the member's length of service and the reduction in benefit payments computed for a 100 percent contingent annuitant option and for early retirement. In lieu of an allowance, the surviving spouse may elect a lump sum benefit equal to the deceased member's annual earnings at the time of death, in addition to a refund of contributions.

If the member did not have at least 5 years creditable service and was not eligible for service retirement at the time of death, then a benefit shall be payable to the member's spouse or the member's designated beneficiary or beneficiaries, if other than the member's spouse, if living, or otherwise to the member's estate, a lump sum benefit equal to the deceased member's annual earnings at the time of death in addition to a refund of contributions.

However, if the member had at least 5 years creditable service or was eligible for service retirement, but is not survived by a spouse, or has designated a beneficiary or beneficiaries other than their spouse, there shall be payable to the person or persons nominated by the member, if living, or otherwise to the member's estate, a lump sum benefit equal to the deceased member's annual earnings at the time of death, in addition to a refund of contributions.

Optional Retirement Allowances

— CONTINGENT ANNUITANT OPTION —

Instead of the normal form of monthly retirement benefit provided by a Service Retirement, a member may, prior to his or her retirement date, elect a contingent annuitant option providing, if the member does not die before his or her retirement date, for actuarially reduced monthly retirement benefits payable during his or her lifetime after retirement and for the continuance of such payments, or a part of them specified by the member, to such contingent annuitant for his or her life after the death of a retired member. Such election may be made by a member at any time prior to his or her retirement date and may not be changed after his or her retirement date. The death of the contingent annuitant at any time prior to the member's retirement date shall automatically revoke such election; and further provided that if the contingent annuitant is the spouse of the member, a divorce granted to either spouse at any time prior to the member's retirement date shall automatically revoke such election.

If a member who has elected this option dies before his or her retirement date, no benefits shall be payable to the contingent annuitant under this option. In such circumstances, benefits, if any, are to be paid in accordance with provisions associated with a Death Benefit or a Termination of employment. If the member dies after his or her retirement date, the contingent annuitant shall receive for life, commencing on the first day of the calendar month coinciding with or next following the retired member's death, the benefits specified by the retired member for the contingent annuitant.

If the contingent annuitant dies before the member's retirement date, the monthly retirement benefit normally provided under this act shall be payable to the retired member as if the option had not been elected. If the contingent annuitant dies after the member's retirement date, the amount of the payments which the retired member is then receiving or is entitled to receive will at that time (with no provisions for retroactive payments) revert back to what it would have been at the member's retirement date if the option had not been elected and will cease upon the retired member's death.

Instead of the normal form of disability benefit, a disabled member may, prior to the start of disability benefits, elect a contingent annuitant option providing for actuarially reduced monthly disability benefits payable during his or her lifetime and for the continuance of such payments, or a part of them as specified by the disabled member, to such contingent annuitant for his or her life after the death of the disabled member.

Once the contingent annuitant option has been elected by a disabled member, it may not be changed or revoked except in the case of death of the contingent annuitant. If the contingent annuitant dies after the disabled member has started receiving disability benefits, the amount of the payments which the disabled member is then receiving or is entitled to receive shall at that time with no provisions for retroactive payments revert back to what it would have been at start of the payment of disability benefits if the option had not been chosen and will cease upon the disabled member's death.

— TEN-YEAR CERTAIN OPTION —

Instead of the normal form of monthly retirement benefit provided by a Service Retirement, a member may elect an actuarially reduced monthly retirement benefit payable for 10 years certain and life thereafter. Such election may be made by a member at any time prior to his or her retirement date and may not be changed after his or her retirement date. Under this option, 120 monthly payments will be made regardless of how long the member lives. If a member dies after his or her retirement date, but before 120 monthly payments have been made, the balance of the 120 monthly payments shall be made to the member's

beneficiary. If the beneficiary, having survived the retired member, dies before all of said 120 payments have been made, then the commuted value of the balance of said payments shall be paid in a lump sum to the beneficiary's estate. If the member dies before his or her retirement date, no benefits shall be payable under this option. If the member survives beyond the 120 month guaranteed payment period, actuarially reduced monthly retirement benefits shall continue until the death of the member at which point the benefit payments shall cease.

Cost of Living Adjustments

The Board of Trustees may adjust the payment to retirees to maintain their incomes at the approximate level with their real incomes at the time of retirement. The Trustees *may* grant a cost of living adjustment (“COLA”) provided that sufficient funds are available to fund any additional benefits either through earnings of the retirement fund or through such special appropriation by the city as may be approved by the board of mayor and aldermen. The determination as to whether sufficient funds are available is determined in accordance with Administrative Rule 7.0 which can be obtained on the System’s website at www.ManchesterRetirement.org or by contacting the System and requesting a copy of the Administrative Rules. The amount of any COLA to be granted is determined by applying a standard measured by the U.S. City Average Consumer Price Index for all items as published by the Bureau of Labor Statistics of the U.S. Department of Labor (“Price Index”).

Refunds of Contributions

Upon termination of employment, a member becomes eligible for a return of contributions deducted and remitted by the employer along with any additional contributions and permissive service purchases paid in, plus all applicable interest. This payment option is available to all members upon termination of employment but should generally be considered only by members who have not attained vested status. Under no circumstances is a terminated member applying for a lump sum distribution eligible to receive a payout of the employer matching portion or of amounts contributed toward participation in the Section 401(h) Medical Health Trust.

A member who is less than 59½ years of age and who does not elect to “roll over” the taxable portion of a distribution from their plan may be subject to mandatory 20% withholding on their distribution and obligated to pay a 10% excise tax on their early distribution. Plan members who must terminate their affiliation with the System and are not eligible to vest can obtain the necessary forms from the Systems administrative staff to perform a roll over and avoid tax consequences of the transaction. The System is not in a position to assist members with tax questions and does not offer investment advice. Members with questions on the disposition of funds received following termination from employment should seek the counsel of tax and financial professionals.

Buybacks & Permissive Service Purchases

A member who ceases to be a member, withdraws their member contributions as described above, and later becomes a member again, may make a request after their return to service for the City for a service buyback of prior service credit for the previous time served as a member. If a service buyback is not made, the member’s benefit shall be based solely on the member’s years of service and final average earnings after the break in service.

A member may also make a service buyback request to receive prior service credit for a period prior to becoming a member during which the member was employed by the city in a temporary position or out on worker’s compensation, leave of absence, or engaged in CETA, model city program, or any other capacity the retirement board determines warrants a service buyback. A service buyback for temporary service may only be made if the member became a permanent city employee without incurring a break in service. A service buyback is also available if an employee elected not to participate in the retirement system when hired and otherwise satisfies the requirements of membership cited above.

If a member does not purchase all available prior service credit, the service credit purchase must begin on the latest date of service available. Members are required to submit proof of employment in order to substantiate prior service.

Upon a request for service buyback, the retirement board determines the cost of the requested service buyback, which amount includes the contributions the member would have been required to make plus buyback interest, and provide a written statement to the member. The member must pay all amounts related to the service buyback in one lump sum.

Effective December 12, 1994, contributions, benefits, and service credit with respect to qualified military service shall be provided in accordance with section 414(u) of the Code notwithstanding any provision of this chapter to the contrary.

Uniformed Services Employment and Reemployment Rights

RETIREMENT SYSTEM BENEFITS IMPACTED BY CALL TO SERVE IN ACTIVE DUTY IN THE MILITARY.

Federal and state laws provide certain benefit protections to Retirement System members who are called to serve in active duty of the uniformed services by either the federal government or by the state of New Hampshire. These laws allow the member to receive credit in the Retirement System for time served in the military. The federal law, the Uniformed Services Employment and Reemployment Rights Act of 1994 ("USERRA") affects employment, reemployment, and retention in employment, when employees serve or have served in the uniformed services. The term "uniformed services" includes the Army, Navy, Air Force, Marines, Coast Guard and the reserve component of these services. The term also includes the National Guard, when engaged in active duty for training, inactive duty training or full-time duty, and the commissioned corps of the Public Health Service. Service includes all categories of military training and service, on a voluntary or involuntary basis, in time of peace or war. New Hampshire RSA 110-C:1 is a New Hampshire law that provides similar protections to members who are called by the State of New Hampshire to serve in active duty in the national guard.

LIMITS ON HOW LONG A MEMBER CAN SERVE IN THE MILITARY AND STILL RETAIN THE RIGHT TO REEMPLOYMENT WITH THE CITY AND THE RIGHT TO RECEIVE SERVICE CREDIT IN THE RETIREMENT SYSTEM.

USERRA generally provides that a member can serve up to 5 years in the armed services and still retain reemployment rights with the City and receive service credit in the Retirement System for their service with the military. USERRA provides that the member must return to City employment within specified time periods in order to preserve their reemployment rights. Please contact the City Human Resources Department for more information.

CREDIT FOR ACTIVE DUTY IN THE UNIFORMED SERVICES IN THE RETIREMENT SYSTEM UPON RETURN TO CITY EMPLOYMENT.

After they return to City employment and make up their normal required member contributions, a member will receive service credit for their period of military service.

CREDIT FOR ACTIVE DUTY IN THE UNIFORMED SERVICES IN THE RETIREMENT SYSTEM WHEN NOT RETURNING TO CITY EMPLOYMENT.

If a member does not return to City employment and make up the normal required member contributions, they will not receive service credit for their period of military service.

TIME LIMIT AFTER REEMPLOYMENT TO MAKE THE MISSED CONTRIBUTIONS.

A member is allowed three times the amount of their military leave or five years, whichever is less, to make the total employee contribution that they would have made if they were not on active duty.

CALCULATION OF EARNINGS DURING A MEMBER'S PERIOD OF MILITARY SERVICE FOR PURPOSES OF DETERMINING THEIR CONTRIBUTIONS AND BENEFITS.

USERRA requires that the Retirement System determine a member's earnings using the rate of pay that they would have received but for their period of military service. Where the rate of earnings they would have received is not reasonably certain, their average rate of earnings during the 12-month period prior to their period of military service must be used. Where the earnings they would have received is not reasonably certain and they were employed by the City for less than 12 months prior to the period of military service, their average earnings must be calculated from this shorter period of employment that preceded their military service.

INTEREST REQUIREMENT WHEN MAKING UP FOR MISSED MEMBER CONTRIBUTIONS.

USERRA prohibits the Retirement System from requiring a member to pay interest or otherwise make up a missed contribution by paying an amount greater than the amount the member would have been permitted or required to contribute had the member remained continuously employed during the period of military service.

Uniformed Services Employment and Reemployment Rights

WITHDRAWAL OF CONTRIBUTIONS IF CALLED TO SERVE IN ACTIVE DUTY.

Neither USERRA nor RSA 110-C:1 allow a Retirement System member who is called to serve in active duty the right to withdraw his or her member contributions. However, if a member terminates City employment before they are called to serve in active duty, they have the same rights to withdraw contributions as any other member. These rights are described in the section above entitled, "Refunds of Contributions"

REPAYMENT OF ACCOUNT BALANCE AFTER WITHDRAWAL OF ALL OR PART OF A MEMBER'S ACCOUNT FROM THE RETIREMENT SYSTEM BEFORE BECOMING REEMPLOYED BY THE CITY.

If a member withdrew all or part their account balance from the Retirement System before they became reemployed, USERRA requires the Retirement System to allow them to repay the withdrawn amounts when they are reemployed. The amount they must repay includes the interest that would have accrued had their contributions not been withdrawn. The repayment of those amounts must be made in any fashion during a time period starting with the date of reemployment and continuing for up to three times the length of the immediate past period of military service, with the repayment period not to exceed five years. Any buyback made after five years must be made in a single lump sum.

In addition to USERRA rights, Chapter 218:10 of the Retirement System statute allows a member to buy back service credit time if they withdrew their contributions following termination of employment. For a discussion of these rules, see the section above entitled, "Buybacks and Permissive Service Purchases"

FINANCIAL ASSISTANCE AVAILABLE TO PAY FOR POST RETIREMENT HEALTH INSURANCE.

As of July 1, 2006 any pensioner (this benefit is limited to the pensioner only and does not cover spouses or dependents under any circumstances) with more than five years of creditable service is entitled to a health insurance subsidy which can be applied against the cost of remaining on the City's health insurance plan after retirement. The subsidy is presently limited to retirees affiliated with the City's health insurance program. The amount of the subsidy varies depending upon the member's date of retirement and their years of service in the plan. For those retiring after March 2006, the subsidy ranges between \$50 per month and \$200 per month. For those retired prior to March of 2006 the subsidy is half that amount. Subsidies will increase by 4% each year.

TABLE OF MONTHLY SUBSIDY ENTITLEMENTS FOR CITY COVERAGE

<i>Initial subsidy levels are shown in this table</i>	Retirement Date	Under 10 Years Service	Over 10 Years Service	Over 15 Years Service	Over 20 Years Service
	Prior to 3/2006	\$25	\$50	\$75	\$100
	After 3/2006	\$50	\$100	\$150	\$200

SIMPLE WAYS TO APPROXIMATE A RETIREMENT BENEFIT.

Calculating the estimated value of the pension benefit a member can expect to receive were once done manually and simple worksheets have been distributed in the past to facilitate that process but because the results can be so important and the margin or error can be considerable because of the smallest mistake, the system has elected to discontinue providing a benefit calculation worksheet. Instead, members who have access to the Internet can visit the system's website at www.ManchesterRetirement.org where instructions in the News & Information Section will help them to set up a Personal Online Access. That access in turn allows the member to calculate an estimated benefit while avoiding misinterpretations of the formula. Equally import for those members without Internet access is a service provided by the system which will calculate a benefit estimate for the member on demand and mail it to their home address simply for the asking. To obtain an estimate by mail a member need only call the system at 624-6506 and ask for the calculation.

OTHER QUESTIONS.

The administrative staff of the MECRS is always ready to help members with questions or concerns regarding participation and entitlement in their Plan. Members are encouraged to think of administrative staff as a resource at their disposal and to contact them any time they have questions about any aspect of the plan. Members may call, fax, email question to the locations listed on page 8.

INDEPENDENT AUDITORS' REPORT

Administrative and Accounting Committee
City of Manchester Employees'
Contributory Retirement Plan

We have audited the accompanying comparative statements of net assets available for benefits of City of Manchester Employees' Contributory Retirement System (the Retirement System) as of December 31, 2005 and 2004, and the related comparative statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Retirement System's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Retirement System as of December 31, 2005 and 2004, and the changes in its net assets available for benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2006 on our consideration of the Retirement System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's Discussion and Analysis on pages 2 through 6 and the historical pension information on pages 18 through 24 are not a required part of the general-purpose financial statements but are supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

A handwritten signature in cursive script that reads "Berry Dunn McNeil & Parker".

Manchester, New Hampshire
March 31, 2006

Management Discussion and Analysis

Our discussion and analysis of the City of Manchester Employees' Contributory Retirement System's (System) financial performance provides an overview of the System's financial activities for the fiscal year ended December 31, 2005. Please read it in conjunction with the transmittal letter from the Chairman of the Board of Trustees and the System's audited financial statements.

FINANCIAL HIGHLIGHTS

- The System's total net assets held in trust for pension benefits were \$115.6 million at December 31, 2005.
- The System's net assets increased by \$9 million which is primarily due to gains in market value and contributions to the plan.
- Employer and employee contributions to the plan were \$7.3 million which represents a \$1,641,417 increase over the preceding year. The employer share of increased contributions represented 56% of the total contributions with \$1.35 million or 18.6% being attributed to a member participation in a service credit upgrade program enacted during the year.
- Benefits paid to plan participants were \$5.3 million. At December 31, 2005, there were 534 retirees and beneficiaries eligible for pension benefits, including those subject to workers compensation offset.

Using this Annual Report

This annual report consists of a series of financial statements. The *Comparative Statements of Net Assets Available for Benefits* and *Comparative Statements of Changes in Net Assets Available for Benefits* (on page 25 and 26) provide information about the activities of the System and the net assets held in trust for pension benefits. The financial statements also contain actuarial information on the value of plan assets, accrued liability and the significant actuarial assumptions used in the actuarial valuations.

Reporting on the System's Finances as a Whole

One of the most important questions asked about the System's finances is: "Is the System as a whole better or worse off as a result of the year's activities?" The *Comparative Statements of Net Assets Available for Benefits* and the *Comparative Statements of Changes in Net Assets Available for Benefits* report information about the System as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to accounting used by private-sector retirement plans. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the System's net assets and changes in them. You can think of the System's net assets – the difference between assets and liabilities – as one way to measure the System's financial health, or financial position. Over time, increases or decreases in the System's net assets are one indicator of whether its financial health is improving or deteriorating. You will also need to consider the actuarial liability or surplus as determined at the first day of each plan year.

Compliance with Provisions of Sarbanes Oxley

The System continues to improve on compliance issues associated with Sarbanes Oxley and this year administrative staff prepared and placed on file, documents attesting that financial statements contain no material misstatements or omissions. In addition, the Board formulated and implemented formal procedures to be used for the reporting, investigation, and subsequent addressing of any suspected irregularities in the operation or practices of the System. Details on these new processes are contained in the Code of Ethics posted to the System's website and compliance reporting forms designed to be used by the process are also posted on that site.

Special Disclosure Relative to Accounts Receivable

In calendar year 2004 the System adopted a percentage of payroll method for collecting employer contributions as opposed to a single lump sum payment. Since the employer's fiscal year and the Plan year differ by six months, with the Plan year commencing first, the transition resulted in a catch-up receivable being generated for the first six months of the Plan year. That receivable was eventually budgeted and paid by the Manchester School District and various enterprise funds of the City with the City's portion continuing to be carried by the System as a receivable. At the end of 2005, the methodology used to determine the amount due from the City of Manchester was being contested by the City. It is uncertain when the \$1.4 million balance due from the City (inclusive of accrued interest) will be collected by the System.

Investment Policy

The Board's investment policy permits fund assets to be invested in U.S. and non-U.S. equities, US and non-U.S. fixed income securities and equity real estate commingled funds. Asset allocations among various classes are:

ASSET ALLOCATIONS AMONG VARIOUS CLASSES ARE:

	POLICY MIX	CURRENT MIX
TAA	17.00%	17.31%
LARGE CAP EQUITY	20.00%	20.94%
MID/SMALL EQUITY	10.00%	10.29%
INTERNATIONAL EQUITY	9.00%	8.68%
EMERGING MARKETS	4.00%	5.75%
HEDGE FUNDS	10.00%	9.34%
PRIVATE EQUITY	5.00%	1.29%
FIXED INCOME	18.00%	17.25%
REAL ASSETS	5.00%	6.98%
CASH	2.00%	2.17%

The Board of Trustees' investment objectives and risk tolerance are intended to achieve a maximum total return with emphasis on preservation of capital in real terms. The investment mix is designed to participate in rising markets, with defensive action expected to an even greater degree in declining markets. Total return includes interest, dividends, and realized/unrealized gains or losses from investments.

System's Activities

Operationally, Plan expenses for the period ending December 31, 2005 were \$6.4 million. This total includes \$.7 million in administrative expenses, \$.4 million in refund of employee contributions and \$5.3 million in benefits paid to retired members and beneficiaries. A total of 1,972 City employees were participants or beneficiaries at year-end.

The value of Plan assets, after subtracting liabilities of the Plan, was \$115,634,181 and \$106,244,443 as of December 31, 2005 and December 31, 2004, respectively. For the year 2005, the Plan experienced an increase in its net assets in the amount of \$9,389,738 and an investment rate of return of 8.4%. Total fund earnings had a third consecutive year in positive territory.

To help assess investment performance, various indexes are employed including a Policy Index, an Actual Index, and an Equity Index. The Policy Index is a custom benchmark consisting of indices which are weighted based upon the asset allocation targets within the portfolio and it measures the return of the asset allocation strategy if it were implemented using passive (index) portfolios. The Actual Index is another custom benchmark weighted upon the allocation of each asset class within the overall structure at the beginning of each quarter. It measures the return of the current asset allocation, again as if it were implemented using passive (index) portfolios. Finally, the Equity Index is similar to the Policy Index but only includes the equity segment indexes and serves as a basis for comparison to total equity performance.

TOTAL FUND EARNINGS 2005

TOTAL EQUITY EARNINGS 2005

Total Plan Investments ended the year with a gain of 8.4%, out-performing the 4.9% rate of return of the S&P 500 Index. Equities for the fund when measured alone achieved a return of 11.9% again exceeding the S&P 500.

PERIOD RATES OF RETURN THROUGH 2005

For the Plan year ended December 31, 2005, the System's rate of return for the one, three and ten year periods exceeded the target rate of 7.5%. The rates were 8.4% for the one year, 16.5% for the three year and 8.9% for the ten year averages. The five year rate of return underperformed owing to a few poor years being included in the average but still managing to finish with a 6.0% rate inclusive of down years. The historical rate of return for the plan (Since Inception of March 1989 the Plan) exceeded the anticipated return of 7.5% by 2.8%.

TEN YEAR HISTORY OF NET ASSET AVAILABLE FOR BENEFITS VALUES AS OF 12/31/05

The year 2005 saw a third year of positive performance in U.S. equities following two years of double digit increases. The System's total portfolio increased by 8.9% during 2005, ending the year with \$115.7 million in net assets. Historical net asset values for the past ten years are shown here.

<u>YEAR</u>	<u>NET ASSETS</u>	<u>YEAR</u>	<u>NET ASSETS</u>
2005	\$115,634,181	2000	\$ 93,034,852
2004	\$106,244,443	1999	\$ 93,302,993
2003	\$ 95,632,743	1998	\$ 83,450,037
2002	\$ 74,796,544	1997	\$ 77,944,473
2001	\$ 85,786,154	1996	\$ 68,702,121

The accompanying notes are an integral part of these financial statements.

Notes to Financial Statements

DECEMBER 31, 2005 AND 2004

1. DESCRIPTION OF PLAN

The following brief description of the City of Manchester Employees' Contributory Retirement System (the Retirement System) is provided for general information purposes. Participants should refer to the plan document for more information.

■ GENERAL

The City of Manchester, New Hampshire (the City) established a single employer, public employee retirement system on January 1, 1974 to provide pension benefits for certain City employees. The Retirement System is a discretely presented component unit of the City's general purpose financial statements.

The Retirement System adopted Statement No. 34 of the Governmental Accounting Standards Board: "Basic Financial Statements and Management's Discussion and Analysis (MD&A) for State and Local Governments", effective December 31, 2001. The only significant impact of this adoption is the inclusion of the MD&A report as an integral part of the financial statements.

At January 1, 2005 and 2004, the Retirement System membership consisted of:

	2005	2004
Retirees and beneficiaries currently receiving benefits	531	509
Terminated vested members	80	68
Active members	1,358	1,316
Total Participants	1,969	1,893

■ ADMINISTRATION

The Retirement System is administered by a Retirement Board of Trustees (the Board of Trustees) consisting of seven members. They are: (1) the City's Finance Director; (2) a person appointed by the Board of Mayor and Aldermen; (3) and (4) two citizens of the City, one appointed by the Mayor and one elected by the employees, neither of whom shall be an officer or employee of the City or a member of any commission of the City; and (5) and (6) two members who are employees of the City and elected by the membership of the Retirement System. The seventh Trustee is the Mayor of the City who is an ex officio member and can vote only to break a tie. The Board of Trustees is responsible for the operation of the Retirement System.

Duties of the Board of Trustees include overseeing investments, approving the actuarial valuation of the Retirement System, including the actuarial assumptions, interpreting statutory provisions, authorizing benefit payments, and formulating administrative policies and procedures.

The daily administrative functions of the Retirement System have been delegated by the Board of Trustees to the Retirement Office. The Retirement Office processes all requests for retirement, maintains member records, and serves as the Retirement System's information center.

All employer and employee contributions are deposited in a trust fund managed and controlled by the Board of Trustees. The Board of Trustees has appointed professional investment managers who are directed to invest the assets of the trust funds in high quality stocks, bonds, and other investments.

■ ELIGIBILITY AND PENSION BENEFITS

Except as described in the following sentence, the Retirement System applies to all full-time and permanent employees of the City, including elected and appointed officials. The Retirement System does not cover certain categories of employees, such as temporary employees, members of boards and commissions who are not full-time or permanent part-time employees of the City, members of the fire and police departments who are eligible to participate in a state-administered retirement system, and other persons who are, or were, eligible to participate in the New Hampshire Retirement System.

All covered employees hired after January 1, 1974 are required to participate in the Retirement System as a condition of employment. Employees are 100% vested after five years of service. The normal retirement age is 60 and the benefit is calculated at 1.5% of final average total compensation during the highest three years of service in the last ten years of service (hereafter final average earnings) multiplied by the years of service. The benefit was increased to 2% for service completed after January 1, 1999. Permanent employees of the City of Manchester prior to January 1, 1974 who were in service as of January 1, 1974, are eligible for early retirement if credited with no less than twenty (20) years of service.

Such early retirement benefit shall be equal to the greater of: (i) fifty percent (50%) of the member's final average earnings, or (ii) the sum of the member's years of service multiplied by one and one-half percent (1.5%) of the member's final average earnings (2% for service completed after January 1, 1999). Members enrolled subsequent to January 1, 1974 are eligible for early retirement benefits if their years of age plus service are equal to or greater than 80, or if they have attained age 55 with 20 years or more of service. All eligible employees are required to contribute 3.75% of their salaries to the Retirement System. If an employee leaves covered employment or dies before five years of service, the Retirement System refunds accumulated employee contributions and their earnings, calculated at the rates determined annually by the Board of Trustees (5% for 2005). The City is required to contribute the remaining amounts necessary to finance the benefits for its employees. Benefit provision and employee contribution changes require amendment of Chapter 218 of the City Charter, first by enabling legislation by the New Hampshire legislature and then subject to approval of the voters of the City through referendum.

■ DISABILITY RETIREMENT

If a participant becomes totally and permanently disabled from a job-related incident, there is no service or age requirement and the minimum benefit is 50% of the final average earnings. This benefit is subject to offset for certain worker's compensation awards on injuries incurred after July 1, 1999.

For a non job-related incident, the disability benefits are payable only if 15 years of service have been rendered and are based on the accrued benefit to the date of disability.

■ COST OF LIVING ADJUSTMENTS

Cost of living adjustments (COLA) are granted pursuant to Administrative Rule 7 by the Board of Trustees. A 3.5% COLA was granted effective July 1, 2005 to all retirees or beneficiaries retired as of December 31, 2004. The effect of the COLA was to increase the actuarial accrued liability at December 31, 2005 by approximately \$1,310,995. This increase will be funded over thirty years. A 4.5% COLA was granted in 2004.

■ SYSTEM TERMINATION

In the event the Retirement System is discontinued, members' retirement benefits will automatically become 100% vested to the extent they are funded. Members' termination benefits will be paid from plan assets to the extent accrued under the Retirement System's terms and in accordance with applicable laws.

2. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

The financial statements are prepared in accordance with Governmental Accounting Standards Board Statements No. 25 and No. 34 and reflect the accrual basis of accounting.

■ INVESTMENTS

Investments are reported at fair value, which has been determined based primarily on quoted market prices (see note 3).

Gains and losses on the sale of investments are computed using the specific identification method of determining cost. The net appreciation(depreciation) in the fair value of investments held by the Retirement System is based on the valuation of investments as of the date of the Comparative Statements of Net Assets Available for Benefits.

■ PENSION BENEFITS PAYABLE

Pension benefits are recorded on an accrual basis when due and payable in accordance with the terms of the plan. Pension benefits payable as of December 31, 2005 and 2004 amounting to \$475,834 and \$439,082 respectively, represents benefits earned by participants that have not been paid as of the end of the year.

■ ESTIMATES

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

■ RISKS AND UNCERTAINTIES

The Retirement System invests in various securities. Investment securities are exposed to various risks, such as interest rate, custodian credit, foreign currency and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits. The direct measurement of these risks is complicated by the fact that most securities are held in a group accounts expressed in U.S. dollars and the exact magnitude of risk associated with components of the group account are not easily attributed to a particular investor. (See Note 8 which begins on page 32).

3. INVESTMENTS

Investment managers have discretionary investment powers within guidelines developed by the Board of Trustees.

The accompanying table presents the net appreciation (depreciation), including realized and unrealized, in fair values of the Retirement System's investments during the years ended December 31, 2005 and 2004.

	<u>2005</u>	<u>2004</u>
Equity funds	\$ 2,995,064	\$ 4,498,024
International equity	471,888	985,302
Alternative equity	201,239	(1,140,644)
Fixed income	(68,063)	1,641,862
Emerging market funds	1,465,619	921,505
Real estate	492,342	288,300
Timberfunds	(43,764)	597,224
Specialty investments	1,275,156	2,299,422
Hedge Funds	740,290	0
TOTAL	<u>\$7,529,771</u>	<u>\$10,090,995</u>

The following table presents the fair value of investments held that represent 5% or more of the Retirement System's net assets available for benefits:

	2005	2004
Income Research Management (Core Bonds Fund)	\$9,517,582	\$10,227,512
Causeway (Foreign Equity Fund)	n/a	7,439,232
Gryphon International (Foreign Equity Fund)	n/a	6,131,586
Loomis Sayles (Fixed Income Fund)	10,314,192	10,911,063
Mellon EB (Asset Allocation Fund)	10,048,581	9,530,728
Mellon Capital EB (Global Tactical Assets)	9,845,640	9,088,338
State Street Global Advisors (U.S. Large Cap Value Fund) . . .	12,064,218	10,983,450
Turner Investment (Midcap Growth Fund)	n/a	7,452,429
Cadence Capital Management	11,996,352	n/a
Vanguard Admiral Fund	6,035,480	n/a

n/a – Not applicable in the year in question

4. CONTRIBUTIONS

The City's funding policy requires contributions to the plan in amounts sufficient to fund the benefits set forth in the plan. The contributions are determined by the Retirement System's Board of Trustees on the basis of the actuary's valuation. Significant actuarial assumptions used to compute the actuarially determined contribution requirements are the same as those used to compute the pension fund obligation.

The City's contributions in 2005 and 2004 were based primarily on actuarial valuations performed as of December 31, 2004 and December 31, 2003. The City's contributions for 2005 and 2004 were in the amounts recommended by the outside actuary. The recommended City contributions for 2005 and 2004 consisted of normal cost of \$4,063,392 and \$3,915,053, respectively, which included amortization of the unfunded actuarial accrued liability (credits) related to actuarial gains and assumption changes. Unfunded prior service costs are being amortized over periods of thirty years. The employer customary contributions represented 8.72% and 8.76 of covered payroll for 2005 and 2004. Effective July 1, 2004, those amounts began being collected on a weekly basis as a percentage of payroll. Total employee contributions for the same periods amounted to \$3,188,343 and \$1,695,265, respectively, and included member payments for buybacks and other permissive service purchases as are authorized by the plan.

As a result of conversion to a per pay period method of collecting the employer customary contribution, a receivable of \$1,674,982 was established for salaries paid between January 1, 2004 and June 30, 2004. A portion of the receivable has been paid by the Manchester School District and various enterprise funds of the City. As of December 31, 2005, the outstanding balance due was \$1,303,074 exclusive of interest. By letter dated May 8, 2006, the City of Manchester questioned the methodology used to determine the amount due and it remains uncertain when that balance due from the City will be collected by the Retirement System.

On June 23, 1995, the Retirement System purchased from an insurance company a non-participating single premium contract for \$1,943,011 to fund the 1992, 1993, and 1995 COLA benefits granted to current retirees covered by the Retirement System. The Retirement System continues to make the entire monthly payment to retirees; however, the insurance company transfers to the Retirement System the aggregate COLA amount each month.

Beginning July 1, 2004, active members were afforded a new option for a defined contribution overlay to their defined benefit plan but limited statutorily to specific purposes. Eligible members can choose to contribute actuarially determined amounts to either offset early retirement reductions or to approach or attain a 50% average final earnings benefit level. Participation in the program as of December 31, 2005 was limited to 4 persons.

5. INCOME TAX STATUS

The Retirement System received a determination letter, dated January 7, 1975, from the Internal Revenue Service that the original plan was qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, was exempt from Federal income taxes under provisions of Section 501(a) of the IRC. The Plan has been amended subsequent to receiving the determination letter. However, the Plan Administrator and the Plan's Tax Counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In November of 2004, the City voters ratified by referendum, Chapter 159 Law of 2004 which passed in the New Hampshire Legislature and was signed into law by the Governor earlier in 2004. The provisions of Chapter 159 called for implementation on July 1, 2005 but reservations were noted by the actuary over potential conflicts with Section 415(n) of the IRS Code. The Board of Trustees on advice of counsel elected to declare a moratorium on implementation and to seek a private letter ruling from the IRS to clarify whether any conflicts did exist between that New Hampshire statute and the IRS Code. A favorable private letter ruling was received in November of 2005 and the program was implemented without further delay and prior to the close of the calendar year.

6. OPERATING LEASE

In July of 2003, the System entered into a five-year non-cancelable operating lease for office space with Metropolis Property Management Group. The present lease affords the System 2,500 feet of office space with the initial term expiring on June 30, 2008. The System has one option to extend for a three-year period at the end of the initial term. After the initial year, the base rent of \$30,000 per year will be increased on an annual basis by the lesser of the cumulative increase in the Consumer Price Index for All Urban Consumers as published by the Department of Labor for the Manchester, New Hampshire area or 5%. The Retirement System paid \$31,514 and \$30,555 in total rent expense in 2005 and 2004, respectively.

**Future minimum lease payments
under non-cancelable leases with an
initial term of one year or more are
as shown here.**

Year ending December 31, 2006	31,919
Year ending December 31, 2007	31,919
Year ending December 31, 2008	<u>15,959</u>
	<u><u>\$79,797</u></u>

7. LITIGATION

On June 22, 2005, the Board of Trustees filed a Petition for Injunctive and Declaratory Relief with the Merrimack County Superior Court seeking to obtain a court order staying the July 1, 2005 effective date of Chapter 159 Law of 2004 until such time as a private letter ruling was issued by the Internal Revenue Service as to whether this legislation was permitted under the Internal Revenue Code. The Board had filed a request on February 24, 2005 seeking an expedited private letter ruling from the IRS. By court order dated June 30, 2005, the Merrimack County Superior Court denied the Retirement System's request for a stay of the July 1, 2005 effective date of the legislation. A favorable private letter ruling was subsequently received from the IRS nullifying the need for the injunction.

8. DEPOSIT AND INVESTMENT RISK DISCLOSURE

■ CUSTODIAL CREDIT RISK – DEPOSITS

At times, the Retirement System maintains cash balances in excess of the amount insured by the Federal Deposit Insurance Corporation. The Retirement System has not experienced any losses in such accounts and cannot avoid at least temporary exposure to such risk when it holds cash deposits in anticipation of monthly annuity payroll obligations. The Retirement System believes it is not exposed to any significant risk with respect to these accounts. At any given time, only the \$100,000 limit specified by the Federal Deposit Insurance Corporation is guaranteed against loss.

■ CUSTODIAL CREDIT RISK – INVESTMENTS

The Retirement System does not have a written policy in place to address custodial credit risk on investments but in practice, it minimizes such risk by holding its investments in the System's name and not in the name of the custodian for benefit of the Retirement System.

■ CONCENTRATION OF CREDIT RISK

The Retirement System's Statement of Investment Objectives, Policies and Guidelines prohibit more than 5% at cost of any security as a percentage of any funds held by the System. In addition, no more than 5% of the outstanding shares of any one corporation can be held by the Retirement System. Taken together, these guidelines mitigate the magnitude of risk and loss attributable to a single issuer.

■ INTEREST RATE RISK – FIXED INCOME INVESTMENTS

Interest rate risk associated with an adverse affect of changes in the fair market value of fixed income securities is not addressed in policy by the Retirement System. While policies do exist to limit the percentage of market value in a single issue at any one time and of the total percentage held of any issuer's debt instruments, the duration of the remaining life of individual securities is not subject to any limitations and may therefore introduce a measure of Interest Rate Risk.

■ FOREIGN CURRENCY RISK

Risk associated with fluctuations in the exchange rate between U.S. dollars and the base currency in other countries, while it exists, can be mitigated by policies which the Retirement System has in place. Forward purchase or sales of currencies, including cross currency hedges, are permitted to protect or enhance the U.S. dollar value of the account. The use of derivative instruments such as currency futures or options for currency is also permitted upon completion of any necessary disclosure or other documentation. No speculative currency hedging is permitted.

9. STAFF RETIREMENT PLAN

During 2005, the Retirement System employees became eligible for participation in the Plan as a result of legislative reforms. Participation in a defined contribution 401(k) Retirement Plan covering the employees of the Retirement System was discontinued and assets of that Plan were transferred to the Retirement System as a Trustee to Trustee Transfer. The Retirement System now pays the employer contribution rate assessed to all employer units in the Plan while Retirement System employees contribute at the statutorily defined rate.

Required Supplemental Information (Un-audited)

SCHEDULE OF FUNDING PROGRESS

ACTUARIAL VALUATION DATE	ACTUARIAL VALUE OF PLAN ASSETS	UNFUNDED ACTUARIAL LIABILITY (SURPLUS)	ACTUARIAL ACCRUED LIABILITY	FUNDED RATIO	ANNUAL COVERED PAYROLL	UNFUNDED LIABILITY TO COVERED PAYROLL
01/01/05	\$103,826,765	\$22,520,228	\$126,346,993	82.2%	\$45,027,930	50%

Actuarial Valuation Method and Assumptions

The Board of Trustees employs an independent actuarial firm to estimate the actuarial present value of accumulated plan benefits and to determine future contribution rates.

Normal cost and the allocation of benefit values between service rendered before and after the valuation date was determined using the individual entry-age actuarial cost method having the following characteristics:

- The annual normal cost for each individual active member, payable from the date of employment to the date of retirement, is sufficient to accumulate the value of the member's benefit at the time of retirement;
- Each annual normal cost is a constant percentage of the member's year-by-year projected covered pay.

The Retirement System currently has a tiered benefit structure with the ultimate tier being more costly than the initial tier. The normal cost is computed based on this tiered structure. As a result, the normal cost rate is expected to increase as the members affected by the initial tier are replaced by new members.

Financing of Unfunded Actuarial Accrued Liabilities

Unfunded actuarial accrued liabilities were amortized by level (principal and interest combined) percentage of payroll contributions over 29 future years.

Actuarial Asset Valuation Method

Last year's valuation assets are increased by contributions and reduced by refunds, benefit payments and expenses. An amount equal to the assumed investment return for the year is then added. Differences between actual return on a market value basis and an assumed return are phased in over a five-year period. The contribution requirements and benefit values of the System are calculated by applying actuarial assumptions to the benefit provisions and member information furnished, using the actuarial cost method described above.

The principal areas of financial risk which require assumptions about future experience are:

- long-term rates of investment return to be generated by the assets of the System,
- patterns of pay increases to members,
- rates of mortality among members, retirees and beneficiaries,
- rates of withdrawal of active members,
- rates of disability among members,
- the age patterns of actual retirement.

In a valuation, the monetary effect of each assumption is calculated for as long as a present covered person survives, a period of time which can be as long as a century.

Actuarial Assumptions

Actual experience of the System will not coincide exactly with assumed experience, regardless of the accuracy of the assumption, or the skill of the actuary and the precision of the many calculations made. Each valuation provides a complete recalculation of assumed future experience and takes into account all past differences between assumed and actual experience. The result is a continual series of adjustments (usually small) to the computed contribution rate.

From time to time it becomes appropriate to modify one or more of the assumptions, to reflect experience trends (but not random year-to-year fluctuations). Present actuarial methods and assumptions were set by the prior actuary and are believed to be reasonable, in the aggregate. Nevertheless, in 2004 the MECRS underwent an experience study to review methods and assumptions. The study results were accepted in November of 2004 for periods subsequent to the December 31, 2004 valuation.

The rate of investment return was 7.5 percent per year, compounded annually (net of administrative and investment expenses). This assumption is used to make money payable at one point in time equal in value to a different amount of money payable at another point in time. The assumed real rate of return (the net return in excess of the wage inflation rate) is 3.5%.

The rates of salary increase used for individual members are in accordance with the following table. This assumption is used to project a member's current salary to the salaries upon which benefit amounts will be based.

SALARY INCREASE ASSUMPTION FOR AN INDIVIDUAL MEMBER

Service	Merit & Seniority	Base (Economic)	Increase Next Year
1	10.00%	4.00%	14.00%
2	8.50%	4.00%	12.50%
3	7.00%	4.00%	11.00%
4	5.50%	4.00%	9.50%
5	4.00%	4.00%	8.00%
6	3.00%	4.00%	7.00%
7	2.50%	4.00%	6.50%
8	2.00%	4.00%	6.00%
9	1.50%	4.00%	5.50%
10	1.00%	4.00%	5.00%
15	0.00%	4.00%	4.00%
20	0.00%	4.00%	4.00%
25	0.00%	4.00%	4.00%
30	0.00%	4.00%	4.00%
35	0.00%	4.00%	4.00%
40	0.00%	4.00%	4.00%

If the number of active members remains constant, then the total active member payroll will increase 4% annually, the base portion of the individual salary increase assumptions. This increasing payroll was recognized in amortizing unfunded actuarial accrued liabilities.

The mortality table was the 1994 Group Annuity Mortality Table, (100% of male rates, 95% of female rates) set back 1 year for men and 0 years for women.

<i>Single Life Retirement Values</i>				
SAMPLE ATTAINED	PRESENT VALUE OF \$1 MONTHLY FOR LIFE		FUTURE LIFE EXPECTANCY (YEARS)	
Ages	Male	Female	Male	Female
50	\$139.43	\$147.83	29.77	35.35
55	130.75	141.34	25.26	30.63
60	120.14	132.91	21.00	26.03
65	108.03	122.75	17.10	21.69
70	94.89	111.01	13.63	17.69
75	80.51	96.97	10.53	13.95
80	65.77	81.46	7.89	10.62

This assumption is used to measure the probabilities of members dying before retirement and the probabilities of each benefit payment being made after retirement.

The rates of retirement used to measure the probability of eligible members retiring during the next year were as follows:

ACTIVE MEMBERS RETIRING NEXT YEAR

Ages	% Retiring
50	5%
51	5%
52	5%
53	5%
54	10%
55	10%
56	10%
57	10%
58	10%
59	10%
60	10%
61	10%
62	35%
63	10%
64	10%
65	35%
66	15%
67	15%
68	15%
69	15%
70	100%
Ref.	730

A member was assumed to be eligible for normal retirement after attaining age 60 with 5 or more years of service. A member was assumed to be eligible for early retirement after attaining age 55 with at least 20 years of service or if the sum of age and service is at least 80.

Rates of separation from active membership
are shown below (rates do not apply to members eligible to retire and do not include separation on account of death or disability). This assumption measures the probabilities of members remaining in employment.

Sample Ages	Service	% of Active Members Separating Within Next Year	
		MALE	FEMALE
	0-1	10.00%	14.00%
	1-2	17.00%	14.00%
	2-3	12.00%	14.00%
	3-4	5.00%	7.00%
	4-5	5.00%	7.00%
30	5 & Up	2.34%	8.00%
35		2.00%	6.40%
40		1.49%	4.40%
45		1.00%	2.30%
50		1.00%	1.90%
Ref.		231 83	345 465

Rates of disability
were divided equally between duty and non-duty disability, and are as follows:

Sample Ages	% of Active Members Becoming Disabled Within Next Year	
	MALE	FEMALE
20	0.007%	0.020%
25	0.007%	0.025%
30	0.007%	0.030%
35	0.037%	0.040%
40	0.142%	0.050%
45	0.292%	0.075%
50	0.480%	0.130%
55	0.712%	0.245%
60	1.060%	0.605%
Ref.	37 x 1.00	238 x 0.50

Expense Load:	None.
Marriage Assumption:	100% of males and 100% of females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses.
Pay Increase Timing:	Beginning of the year. This is equivalent to assuming that reported pays represent amounts paid to members during the year ended on the valuation date.
Decrement Timing:	Decrements of all types are assumed to occur mid-year.
Eligibility Testing:	Eligibility for benefits is determined based upon the age nearest birthday and exact fractional service on the date the decrement is assumed to occur.
Decrement Relativity:	Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.
Decrement Operations:	Disability and withdrawal decrements do not operate after member reaches retirement eligibility.
Normal Form of Benefit:	The assumed normal form of benefit is the straight life form.
Benefit Service:	Exact fractional service as of the valuation date is used to determine the amount of benefit payable.
Incidence of Contributions:	Contributions are assumed to be received continuously throughout the year based upon the actual payroll payable at the time contributions are made.
